

ROSEN METHOD: THE BERKELEY CENTER

2023 – 2024 Catalog

MISSION

The mission of ROSEN METHOD: the Berkeley Center is to provide high quality education in Rosen Method Bodywork and Movement Training. Our purpose is to increase public awareness about the benefits of Rosen Method for health education and the application that Rosen Method has in enhancing the work of health care providers and in enriching many aspects of life, including creativity, spirituality and personal relationships. The faculty and staff of this Center aim to make available to health care providers the perspective that the human body, mind and emotions are interrelated and that these relationships can be used to improve results for the patients these healthcare providers treat. We prepare students who complete the Rosen Method Bodywork Training with the knowledge, skills and personal development necessary to practice Rosen Method bodywork with a professional level of competence. We prepare students who complete the Rosen Method Movement Teacher Training to teach Rosen Method movement with a professional level of competence. We also provide non-career track students with the skills and experiences of personal growth that enrich their personal development, family and work life.

ROSEN METHOD BODYWORK TRAINING

Weekly Bodywork Training

Rosen Method: the Berkeley Center offers a three-year training program in Rosen Method bodywork consisting of six 10 week modules, followed by a 12- to 18-month internship, which leads to certification by the Rosen Institute in Rosen Method bodywork.

Level One—Fundamentals of Rosen Method Bodywork—conveys the basic theory and experience of the work. It is series of three 10-week modules that consists of classroom discussions, demonstrations, and exchanges of bodywork between students. Each module of the course meets once a week for 4.5 hours, with time for students to practice newly acquired skills in a supervised setting. This course is a prerequisite for the Advanced Training.

Level Two—the Advanced Training—is a series of three 10-week modules that enables students to gain a professional level of competence in Rosen Method bodywork. Classroom work offers intensive supervision and discussion of students' work, as well as demonstrations by Rosen Method teachers. Professional issues such as practice-building, fee-setting, boundaries, scope of practice, and referral of clients to other health care professionals are all covered. This course meets once a week for 4.5 hours. Upon satisfactory completion of the Advanced Training, students may be recommended for internship.

Intensive Bodywork Training

The Intensive Training is available to students from outside the Bay Area or those who prefer this learning format. It takes place over eight days and is 42 hours long. It is an opportunity for

personal growth as well as professional training and is an exploration of the practical and philosophical aspects of the work. Students get direct experience with Rosen Method bodywork and movement and a chance to see the effects of the work in themselves and their fellow students. The curriculum includes demonstrations, discussions of personal experiences, and exchanges of bodywork under supervision. Students attend six intensives, three for **Level One** and three more for **Level Two**, and then are evaluated for internship. A maximum of three Intensives may be taken in one year.

Internship

The final stage of the bodywork training is a 12- to 18-month internship, which comprises 350 hours of independent practical work seeing clients, 25 hours of personal Rosen Method bodywork, and 35 hours of client supervision and case consultation.

Unless relieved of the obligation to do so, you must pay the state-imposed assessment for the STRF, or it must be paid on your behalf, if you are a student in an educational program, who is a California resident, or are enrolled in a residency program, and prepay all or part of your tuition.

You are not eligible for protection from the STRF and you are not required to pay the STRF assessment, if you are not a California resident, or are not enrolled in a residency program.

It is important that you keep copies of your enrollment agreement, financial aid documents, receipts, or any other information that documents the amount paid to the school. Questions regarding the STRF may be directed to the Bureau for Private Postsecondary Education, 1747 N.

Market Blvd. Ste 225 Sacramento, CA 95834, P.O. Box 980818, West Sacramento, CA 95798-0818, (916) 431-6959 or (888) 370-7589.

To be eligible for STRF, you must be a California resident or are enrolled in a residency program, prepaid tuition, paid or deemed to have paid the STRF assessment, and suffered an economic loss as a result of any of the following:

1. The institution, a location of the institution, or an educational program offered by the institution was closed or discontinued, and you did not choose to participate in a teach-out plan approved by the Bureau or did not complete a chosen teach-out plan approved by the Bureau.
2. You were enrolled at an institution or a location of the institution within the 120 day period before the closure of the institution or location of the institution, or were enrolled in an educational program within the 120 day period before the program was discontinued.
3. You were enrolled at an institution or a location of the institution more than 120 days before the closure of the institution or location of the institution, in an educational program offered by the institution as to which the Bureau determined there was a significant decline in the quality or value of the program more than 120 days before closure.
4. The institution has been ordered to pay a refund by the Bureau but has failed to do so.
5. The institution has failed to pay or reimburse loan proceeds under a federal student loan program as required by law, or has failed to pay or reimburse proceeds received by the institution in excess of tuition and other costs.
6. You have been awarded restitution, a refund, or other monetary award by an arbitrator or court, based on a violation of this chapter by an institution or representative of an institution, but have been unable to collect the award from the institution.
7. You sought legal counsel that resulted in the cancellation of one or more of your student loans and have an invoice for services rendered and evidence of the cancellation of the student loan or loans.

To qualify for STRF reimbursement, the application must be received within four (4) years from the date of the action or event that made the student eligible for recovery from STRF.

A student whose loan is revived by a loan holder or debt collector after a period of noncollection may, at any time, file a written application for recovery from STRF for the debt that would have otherwise been eligible for recovery. If it has been more than four (4) years since the action or event that made the student eligible, the student must have filed a written application for recovery within the original four (4) year period, unless the period has been extended by another act of law.

However, no claim can be paid to any student without a social security number or a taxpayer identification number.
